# FAIZA V K

Bengaluru, Karnataka | +91 8105575119 | faizafaiyazvk@gmail.com | GitHub | LinkedIn

## SUMMARY

Information Science undergraduate at RV Institute of Technology and Management, CGPA 9.52/10 as of semester 6, and a Development Intern at ArtIntele. Builds pipelines, full-stack applications, and retrieval systems in Python, Java, and JavaScript. Section Leader, Code in Place, Stanford University; two Scopus-indexed Springer Nature chapters in press.

## TECHNICAL SKILLS

- **Languages & Core:** Python, Java, JavaScript/TypeScript, Go, C, DSA, OOP, DBMS, OS, Computer Networks.
- **Web & APIs:** React, Node/Express, FastAPI, Flask, REST APIs, GraphQL, gRPC, JWT/RBAC.
- **Data & Systems:** SQL, MySQL, MongoDB, Apache Cassandra, Apache Spark, ChromaDB, Docker, Linux, Git.
- **AI/ML:** scikit-learn, Prophet, Hugging Face, LangChain, RAG, OpenCV, YOLO, Groq, Ollama.

## PROJECTS

**Log and Telemetry Analytics** | *Python, Apache Cassandra, Apache Spark, Docker*

- Parsed 978 Hadoop container logs from a five-machine cluster (WordCount and PageRank) and loaded 180,896 events into Cassandra tables built for scenario totals, hourly error spikes, and raw-log lookup.
- Recomputed scenario totals in Spark. Network-disconnection runs show ResourceManager contact errors, lease-renewal failures, and address changes; normal runs do not. Disk-full runs and killed-task counts do not share that signature.

**Smart Campus** | *MongoDB, Express, React, Node.js, JWT/RBAC*

- Built a role-based campus platform (JWT; student, faculty, admin) with expiring attendance codes, automatic flags below 75 percent attendance, timetable conflict checks, and a copilot that answers from live MongoDB data.

**AI Developer Copilot** | *Python, FastAPI, React, RAG, ChromaDB, Ollama* **Major Project - In Progress**

- Building an offline, repository-aware RAG assistant: ChromaDB retrieves source code and local Ollama models answer, so the repository stays on the machine.
- Wrote a 30-feature specification and corrected embedding persistence and retrieval accuracy before the rest of the team built on the index.

**Distributed Key-Value Store** | *Go, gRPC, GraphQL* **In Progress**

- Implementing Raft leader election and log replication, gRPC between nodes, and a GraphQL API that follows the current leader.

**Also:** FinOps cloud-cost anomalies (Python, Flask, Prophet, React). Spectus scam classifier (Python, FastAPI, scikit-learn, ChromaDB, Groq). Elenchus Slack claim checker (Python, Slack Bolt, MCP). AedesWatch breeding-site scanner (Python, OpenCV, YOLO, Streamlit).

**Open Source:** malariagen/malariagen-data, AOSSIE-Org/EduAid (2026)

## EXPERIENCE & LEADERSHIP

**Development Intern** | *ArtIntele* **Sept 2026 – Present**

- Implementing assigned features in React, and collaborating through Git and GitHub.

**Technical Content Head** | *The Coder's Club, RVITM* **Aug 2025 – Present**

- Set data-structures and algorithms assessments in Java, and review full-stack project work for the club.

**Section Leader** | *Code in Place, Stanford University* **Apr 2026 – Jun 2026**

- Selected to teach a section of Stanford's global introductory programming course and to review student code.

**Research Intern** | *The Business Sentinel, Bengaluru* **Oct 2023 – Jan 2024**

- Tracked AI and deep-tech market trends and turned them into dashboards used by the sales team.

## PUBLICATIONS, CERTIFICATIONS & HACKATHONS

- **Publications:** 2 Scopus-indexed book chapters (Springer Nature, Accepted/In Press) — “Introduction to AI in Industry 4.0” and “Exploring Practical Applications of AI in Additive Manufacturing through Case Studies.”
- **Certifications:**
  - – Cloud Computing for Data Science Specialization, Univ. of Pittsburgh/Coursera (2026)
  - – Basics of Networking, Cisco Networking Academy (2025).
- **Hackathons:**
  - – IndiAignite 2025 – NashaMukt AI.
  - – ISRO Bharatiya Antariksh Hackathon 2025 – air quality data modeling.

## EDUCATION

**RV Institute of Technology and Management, Bengaluru** **2023 – 2027**

Bachelor of Engineering in Information Science and Engineering CGPA: 9.52/10 (As of semester 6)
